DISCLOSURE

THE WHITE HOUSE  
WASHINGTON

Three Russian Crews -

We had warned Cuba  
and Russia time and again  
by three speeches by Pres  
Kennedy and a joint  
Cong. Res. he signed that  
establishment of any offensive  
bases in Cuba would  
~~would be~~ in effect be  
considered an act of War  
against this Hemisphere.

Such an air strike and  
invasion would therefore  
have been in violation -

The fact that they had been

THE WHITE HOUSE  
WASHINGTON

Oct 23<sup>rd</sup>  
1962

The ~~present~~ danger to  
this country is in the  
more than 40 missiles  
already in place. ~~the~~ If  
fired they would destroy  
40 of our cities and inflict  
millions of casualties on our  
people.

The ~~present~~ guarantee will  
not ~~off~~ remove the danger.  
I therefore advocated knocking  
out these ~~missiles~~ and destroying  
all missiles with bombs and  
rockets before the guarantee  
was ~~announced~~ <sup>announced</sup> to prevent them  
from ever being fired by.

THE WHITE HOUSE  
WASHINGTON

Warmed time and again  
removed such action from  
the "sneak attack" category  
referred to by Sec. McNamara.

The guarantee will  
cover bitter statements  
and a series of incidents  
that could more likely  
lead to a nuclear war  
than the past accomplishi  
of having done that  
which we told them we  
would do -

THE WHITE HOUSE  
WASHINGTON

I brought word "Quarantine"  
into conferences - 1st in  
 Eisenhower admin -

I defined it as a blockade  
limited to lethal weapons or  
arms only - whereas "Blockade"  
applied to all shipping and  
all cargoes - including food -

I suggested it because  
many writers on international  
law assert "blockade" is  
an act of war whereas there  
is no precedent or definition  
of "quarantine."
